About Us

Smith Design Solutions Limited was formerly known as 2webmonkeys Ltd. The company changed name at the beginning of January 2006.

The reasoning behind the name change at this time was to reflect the diversity of our business and the fact that we were no longer an Internet only business. Our background is in graphic design but with a strong grip on the latest technologies.

We have been trading for over 14 years and have built up a considerable client base. We have also recently moved to new premises to reflect the expansion of the business.

We are registered in Scotland as a business, number SC146050.
