At Smith Design Solutions we do not offer website packages at set prices, we leave that to the template based companies. All our websites are design from scratch, this allows us to meet our clients exact requirements. Why start out your website with restrictions and rules like so many other companies offer?

Our price structure is highly competitive and you can be assured of a unique, well designed and built to last website. All sites are optimised and submitted to all major search engines.

## Typical Small Business Website

Typically you would expect your website package to contain

- Registration of your Domain Name(s)
- Personalised e-mail addresses (up to 10)
- 4-5 web pages (consisting of html and Flash animation)
- Logo creation (especially for new businesses)
- Web hosting
- Traffic reports (monthly)
- Search Engine Optimisation / Submission
- No traffic restrictions

## Large Corporate Website

Typically you would expect your website package to contain

- Personalised e-mail addresses (up to 50)
- Up to 75 web pages (consisting of ASP, PHP, HTML, FLASH)
- Web hosting • Traffic reports (monthly)
- Search Engine Optimisation / Submission
- No traffic restrictions • Content Management System
